

3.x AUTHORIZING TOOL

PACKAGE & PLAY RECORDED MEDIA

Synched Stream Player
 Play on Any PC
 DVR Control
 Customizable UI
 Easy-to-Use

The IP Video Systems Authoring Tool provides users of IP Video Systems Digital Media Stations (DMS) the ability to break free of networking constraints and share high-fidelity archived content anywhere in the world. It packages the revolutionary, multi-codec IP Video Systems Media Player alongside your recorded content in a customizable software package that can be distributed to users via email, removable media, or file sharing sites.

KEY PRODUCT FEATURES

- **Ultra High-Definition:** Playback 5+ Megapixels; up to 3840x1200 video and graphics resolution anywhere, anytime and on any PC
- **Multi-Codec Media Player:** Packaged alongside your recorded content for seamless playback
- **Multi-Source Player:** View multiple streams in a single skin with DVR control
- **Window/PIp Placement:** Control window size & layout
